

PROJECT MANAGEMENT

RB Engineering now offers project management services for both our residential and commercial clients.

RB Engineering will act on your behalf to ensure that you receive quality foundation repair work that meets the project objectives and is completed at the most competitive pricing. We will work together with the repair contractor so that the job gets done right per the engineered plan of repair. Please call our office today for additional information on our services to learn how we can help you manage your foundation repair project.

Our Process:

- Consultation with the client
- Work with qualified contractors to procure bids
- Assist in the selection of a qualified contractor
- Communicate with all parties to develop an acceptable work schedule
- Conduct field observations and inspections
- Document work quality and provide engineering consultation
- Provide an engineering 'sign off' letter at project completion
